Project and Portfolio  
Section 2

#### Burn Up List 2

- 1) Attend/Watch the GTT of the week
  - a. I feel this is the most important task of the week as it sets forth the guidelines for this week's assignments
- 2) Anchor Points
  - a. It is very important to set forth goals before attempting any type of task including class work.
- 3) Communicating with Clarity/Communicating with Visuals
  - a. Just examining the title of these assignments seem to go hand in hand, because if you can not communicate clearly with just words, visuals will only further muddy your message. With these as the first assignments, I feel this may be the main topic of this week's lessons.
- 4) Call to Action: Encouragement
  - a. Reflect on quotes and pick my favorite. Describe why I chose this quote
- 5) Review assignments for Career Module
  - Research and development is ongoing for completion for this week's project and addition to my Portfolio.
